

After an extensive test, you can now choose from two different gullet plates for our baroque saddles:

V-Shape: BK Black
U-Shape: NFX Blue

The option to choose between two gullet plates results in even better adaptability to the respective horse types

- The **BK Black** is the proven gullet plate that you've known as the standard in our Baroque and Quantum models for many years.
- We already use the new **NFX Blue** gullet plate as standard in all NovaFlex models as well as in the Majestro and Majestro Dressage. This gullet plate is now also optionally available for baroque saddles.
